

EXAM RESULTS BULLETIN

2011 GCSE results – the best ever

Teaching staff at St Edward's, a special school for boys who experience behavioural, emotional and social difficulties (BESD), have secured the School's best GCSE results ever following the 2011 examinations. The results compare favourably with many mainstream schools.

GCSE Grades as percentages
National Comparison

St Edward's is a special school for boys who experience behavioural, emotional and social difficulties (BESD)

THE BIG NUMBERS

IN A SUPERB SET OF RESULTS, it emerged that every pupil had achieved at least 5 GCSE passes and 90% of boys attained at least 6 passes. 42.5% of all our grades were awarded at Grade C or better and one pupil secured 7 GCSE passes, all at Grade C and above, with three 'A' grades.

The School's previous best average grade (E), impressive in itself for a BESD provision, was surpassed by a distance as the combined efforts of this group of boys resulted in an average overall grade of C/D.

The main reason for this success lies with the highly favourable teacher:pupil ratio – a key feature of this special provision – together with the guidance and encouragement of a strong, dedicated and cohesive team of teachers, social care and support staff.

Supplementing this hugely successful outcome, every one of our Year 11 pupils achieved passes in the Certificate for Skills in Working Life and our two Year 12 students were awarded BTEC certificates, each worth an equivalent of four GCSE passes at Grades B and C respectively.

5

Every pupil achieved at least 5 GCSE passes

6

90% of pupils achieved at least 6 GCSE passes

7

One pupil secured 7 GCSE passes with three A Grades

C

42.5% of all passes were at Grade C or better
